

Oral Presentation

- O-01 Surgical interventions and survival in children with trisomy 18: A population-based cohort study in Japan
Kana Fukui
- O-02 Lung Ultrasound for Predicting Surfactant Administration in Ventilated and Non-ventilated Infants with Respiratory Distress Syndrome: A Multicenter Prospective Study
Yusuke Hoshino
- O-03 Outcomes of bronchopulmonary dysplasia in very low birth weight infants: 20-year survey
Chien-Yi Chen
- O-04 Perioperative Biventricular Function in Congenital Diaphragmatic Hernia: A three-dimensional echocardiographic study
Katsuaki Toyoshima
- O-05 Dynamics of Microbiome Composition on the Maternal-Fetal Side of the Placenta: A Spatial Analysis
Young Joo Lee
- O-06 Association Between Cord Blood Metabolomics and Childhood Lung Function: A Prospective Cohort Study in Taiwan.
An-Jou Hsu
- O-07 The effectiveness of ECMO in CDH; Comparison between ECMO center and Non-ECMO center
Hidehiko Maruyama

- O-08 Risk Factors and Neurodevelopmental Consequences of Pulmonary Hypertension in Preterm Infants: A Retrospective Cohort Study Utilizing Database
Yu-Chen Hsu
- O-09 Long-Term Neurobehavioral Consequences of Neonatal Lipopolysaccharide Sensitization and Dexamethasone Exposure in Neonatal Mice
Yu-Shan Chang
- O-10 Development of an Application that Analyzes Baby Cries Using AI Technology to Estimate Emotions and Propose Interventions
Kohga Nakai
- O-11 Impact of Neurally Adjusted Ventilatory Assist Management on Neurodevelopmental Outcomes in Extremely Preterm Infants
Tomoko Saito
- O-12 Evolving Respiratory Support Strategies in Extremely Preterm Infants: A Nationwide Cohort Study in Taiwan, 2014–2023
Kaiti Tseng

Poster Presentation

- P -01 Associations of Early Antibiotic Exposure and Neonatal or Parental Risk Factors with Autism, Attention-Deficit/Hyperactivity Disorder, and Other Neurodevelopmental Disorders: A Nationwide Population-Based Study
Hao-Yuan Lee
- P -02 Associations of Early Antibiotic Exposure and Neonatal or Parental Risk Factors with Asthma, Allergic Rhinitis, and Atopic Dermatitis: A Nationwide Population-Based Study
Hao-Yuan Lee
- P -03 Associations of Early Antibiotic Exposure and Neonatal or Parental Risk Factors with Childhood Respiratory Diseases: A Nationwide Population-Based Study
Hao-Yuan Lee
- P -04 Using the Quality Control Circle to Improve the Effectiveness of the Child Care Program
Chen Shu-Fen
- P -05 Effectiveness of maternal influenza vaccine in infants: a population-based cohort study
Yi-Ning Li
- P -06 General Movements at Three Months as Predictors of Developmental Outcomes in Low-Risk Preterm Infants
Teng-Yuan Chang

P -07 Early-Life Development of the Intestinal Microbiome in Korean Neonates

MinJong Lee

P -08 Cerebral Hypoxia is Associated with an Increased Risk of Severe Retinopathy of Prematurity in Extremely Preterm Infants

Shu-Yu Lin

P -09 Neuroprotective Strategies and the Impact of Routine Brain Ultrasound and Echocardiography in Preterm Infants ≤ 29 Weeks GA

Wan-Jin Yu

P -10 Long-Term Outcomes of Autologous Umbilical Cord Blood Stem Cell Therapy in Neonates with Hypoxic-Ischemic Encephalopathy

Mariko Sawada

P -11 Enhancing Efficiency and Safety in High-Risk Neonatal Transport Through a Comprehensive Care System

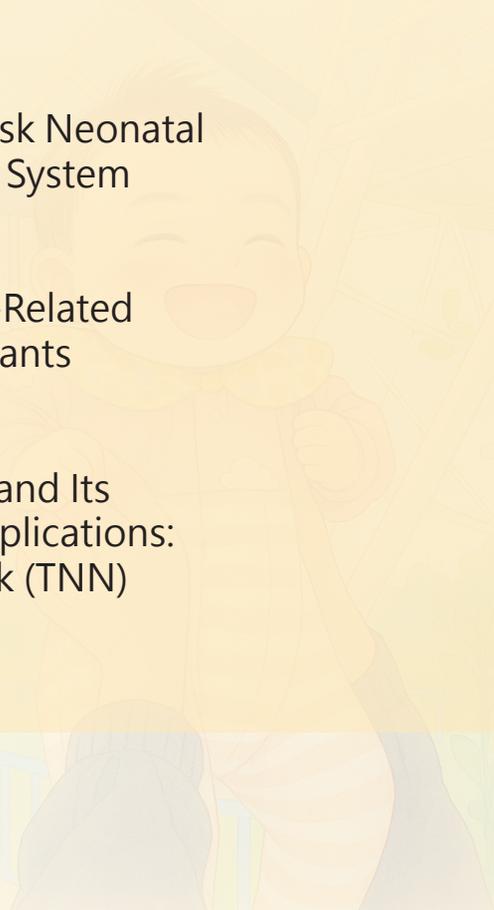

Yu-Ching Shen

P -12 Effectiveness of Vaccine Against Influenza-Related Illness in Preterm and Low Birth Weight Infants

Tzu-Cheng Tseng

P -13 Trends in Caffeine Use for Preterm Infants and Its Association with Prematurity-Related Complications: Insights from the Taiwan Neonatal Network (TNN) Dataset

Hsiao-Han Lai

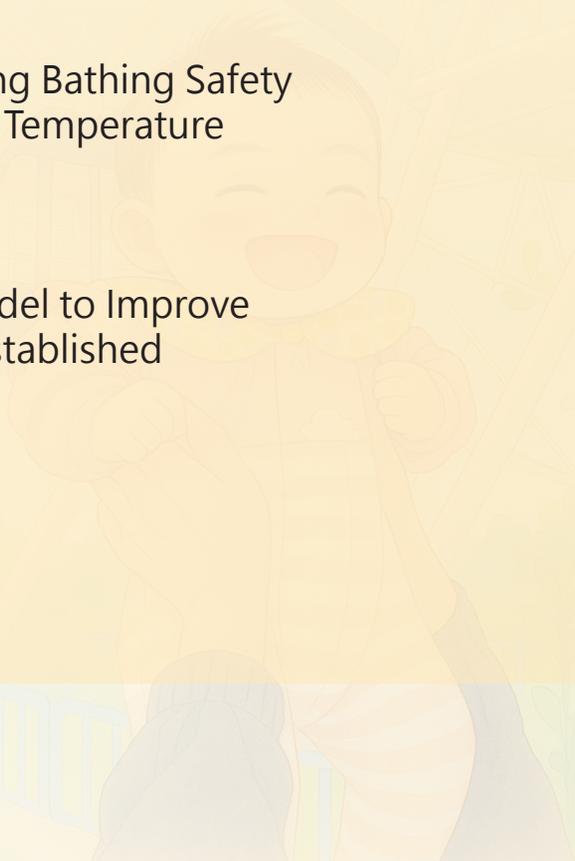

- P -14 Social Development in Extremely Preterm Infants —
Characteristics of social attention in 2-year-olds—
Mayu Mitani
- P -15 Relationship between insulin therapy for hyperglycemia
and neurodevelopmental outcome in extremely
preterm infants
Kazusa Nakajima
- P -16 To predict neurodevelopmental outcome up to 6 years
of age using Proton Magnetic Resonance Spectroscopy
in preterm infants
Manami Akasaka
- P -17 Congenital Cytomegalovirus-induced Bone Marrow
Suppression
Nguyen Thi Xuan Dieu
- P -18 Management of Severe Hemolytic Disease of the
Newborn Associated with Anti-M Antibodies: A Case
Report
Nguyen Thi Xuan Dieu
- P -19 Enhancing bonding between parents and newborns in
a family using a multisensory online visitation system.
Shizuka Abe
- P -20 Perinatal Risk Factors for Onset and Severity of
Retinopathy of Prematurity in Extremely Preterm Infants
Shigo Ikeyama

- P -21 Improving Care Process Accuracy for Infants with Developmental Dysplasia of the Hip (DDH)
Chen Shu-Fen
- P -22 Applying Informatization and Power BI for the Management of Baby-Friendly Clinical Indicators: An Effectiveness Study
Chen Shu-Fen
- P -23 Applying Simulation-Based Teaching Strategies to Neonatal Clinical Resuscitation Training: An Effectiveness Study
Chen Yu-Ching
- P -24 Enhancing Breastfeeding Skills among Migrant Workers through the Application of Transdisciplinary Caring Theory
Chen Li-Hsiu
- P -25 Innovation in Neonatal Care: Improving Bathing Safety through the Application of LED Water Temperature Sensor Systems
Wang Yun-Jen
- P -26 Applying a Teamwork-Based Care Model to Improve Management Outcomes in a Newly Established Hospital Nursery
Jiang Yi-Fang

- P -27 Clinical Application of a Novel Angle-Alert Medical Goniometer for Nursing Education and Care in Infant Hip Dysplasia
Chen Shu-Fen
- P -28 Impact of Increased Human Milk Fortifier Concentration on Growth and Gastrointestinal Tolerance in Preterm Infants
Wei Ting Hsu
- P -29 Improving Early Feeding in Preterm Infants Through Donor Milk Accessibility: A 14-Year Study from a NICU-Affiliated Human Milk Bank
YenJu Chen
- P -30 Impact of Medical Equipment Integration and Healthcare Training on CPAP Utilization and Neonatal Outcomes in Guatemala: An Evaluation of the Taiwan-Guatemala Maternal-Neonatal Health Project
Hsin-Chung Huang
- P -31 A Case of a Novel HNF1B Gene Mutation (c.316C>T) and the Renal and Extra-Renal Manifestations of HNF1B Nephropathy
Malak Azziz
- P -32 Impact of hydrogen gas inhalation during therapeutic hypothermia on cerebral hemodynamics and oxygenation in the asphyxiated piglet
Shinji Nakamura

- P -33 IMPLEMENTATION OF MODERN WOUND CARE IN NEWBORN BABY WITH EPIDERMOLYSIS BULLOSA ACQUISITA IN THE NICU OF BUDI KEMULIAAN HOSPITAL, JAKARTA: CASE REPORT
Ns Gita Bahari,S.Kep
- P -34 Gastric Fluid IL-8 as an Early Biomarker of Inflammatory Response in Late Preterm and Term Neonates with Respiratory Distress
WeiTing Lin
- P -35 The Ontogeny and the Role of Cocksackievirus-Adenovirus-Receptor (CAR) Positive Lung Stem Cells during Lung Development
Po-Nien Tsao
- P -37 The Impact of a 22-Week Gestational Age Threshold on Neonatal Mortality Trends in Japan, Korea, and Taiwan
Chia-Sui Chou
- P -38 Trends in neonatal mortality on the day of birth in Japan Korea and Taiwan from 2005 to 2020
Yi-Wei Sun
